

Studying for and Taking the Exam

Andrew Mallett

Author and Trainer

@theurbanpenguin www.theurbanpenguin.com

Study and Practice

Setup labs

Practice and research each demo

Don't just copy and paste the commands, write them!

Build your own scenarios

Become the expert

Your Labs

We use:

- Vagrant and VirtualBox
 - [VirtualBox.org](https://www.virtualbox.org)
 - developer.hashicorp.com/vagrant/downloads
- Ubuntu 20.04
- Vagrantfile
 - github.com/theurbanpenguin/lfcs

The Exam

Linux Foundation Certified System Admin (LFCS)

- Performance based online
- 20-25 tasks
- Pass 66% or higher
- 2 Hours
- Access man pages and documentation installed in the distribution
- <https://docs.linuxfoundation.org/tc-docs/certification/lf-handbook2>

Demo

Let's look at the exam handbook

Summary

We have introduced to you the Linux Foundation Certified System Administrator (LFCS) exam

- Study
- Labs
- Objectives
- Booking the exam

Good Luck: From myself, Andrew, and the complete Pluralsight team
